

FLAG OF CANADA SHOWS TWO ARK SIZES

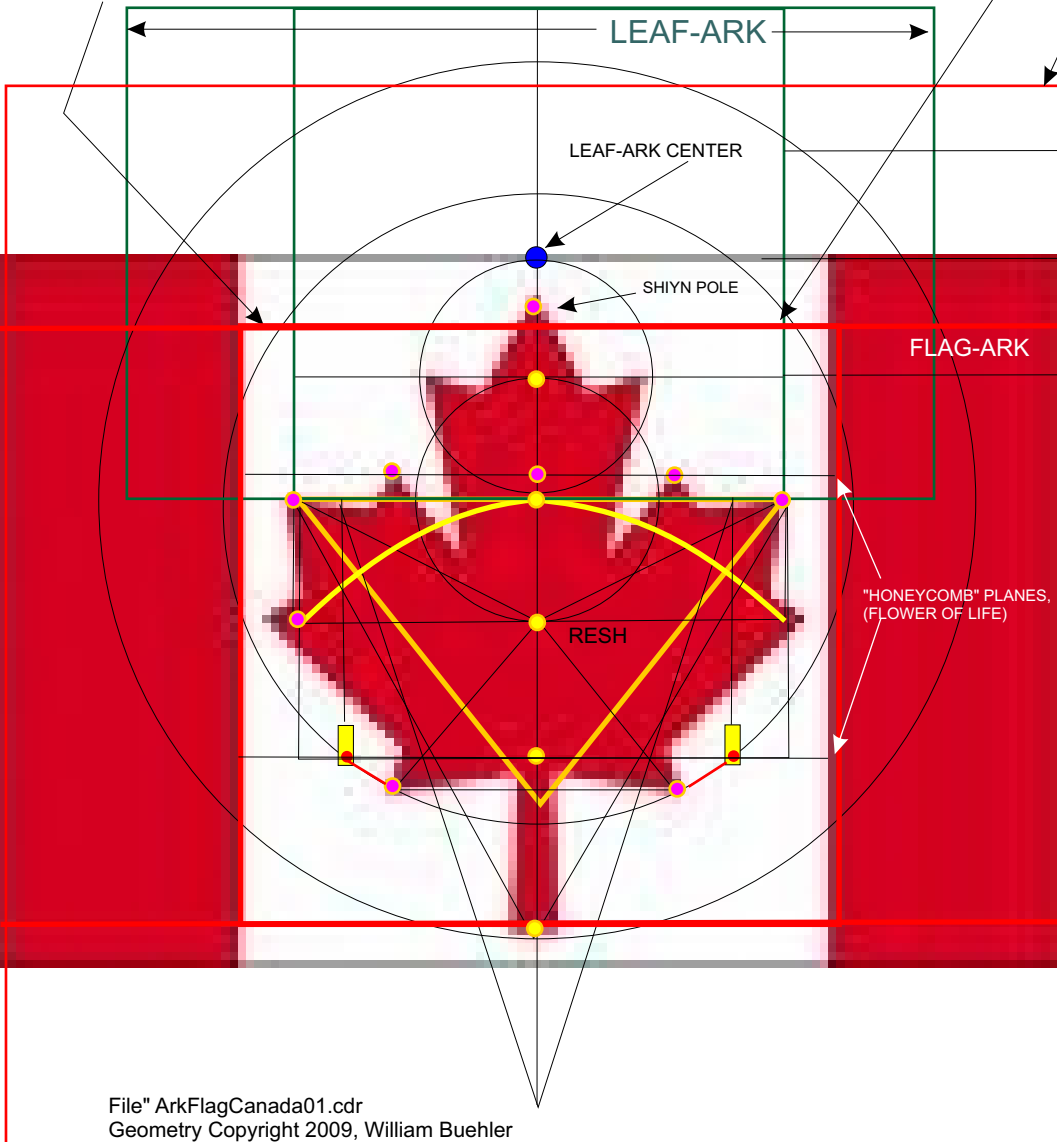

THE "HIDDEN" INNER-CUBE IS ALSO UNDERSTOOD!

MEASUREMENT RATIOS FOR THE ARK OF THE COVENANT ARE USED. (EX 25:10-22)

AN ARK UNIT IS A CUBE; THERE IS AN INNER AND OUTER CUBE. THE SCALE OF THE CUBES IS 2 TO 1. MEASUREMENTS IN SCRIPTURE ESTABLISH THE BASIC GEOMETRY RESONANT WITH THE TEMPLE AND PORCH. THE ARK OF THE COVENANT IS REPLACED, THE FLAG SYSTEM USES THE NEW FORMAT AND SPECIFICALLY THE NEW "ADD-ON" ORIENTED DOWNWARD INTO THE EARTH.

DESIGN OF THE FLAG WAS PROBABLY DIVINELY GUIDED SINCE THE TECHNOLOGY IS NEW. THE DESIGN SHOWN HERE IS ONLY A BARE SKETCH TO DEMONSTRATE PROPORTIONS.

LENGTH OF FLAG DETERMINES THE ARK-SQUARE. THE LEAF NEARLY FITS THE SQUARE. THE WIDTH OF THE WHITE CENTER FIELD IS THE WIDTH OF THE HIDDEN CUBE IN THE ARK. THE GREAT PYRAMID SETS THE DESIGN. THE CENTER OF THE LEAF IS THE "CHIEF HEAD STONE" OF THE LEAF-ARK.

FLAG-ARK INNER CUBE
FLAG-ARK OUTER CUBE
