

ARKHOM GRID: OSSIPEE:

NOTES:

1. OSSIPEE IS IN THE RESHEL VAULT OF THE SUN POLE IN THE TEYTH (SEEDING) FUNCTION.
2. THE CENTRAL VOLCANIC VENT IS THE PRIME POLE OR "CREATION FIELD" IN ADION COUPLET SYSTEM. THE GREEN AND RED VENTS ARE THE TWO GENERATING POLES.
3. THE GREEN, RED, WHITE AND BLACK ARE COLORS IN THE 4 SEALS IN REVELATION WITH NEARLY THE SAME FUNCTIONS HOWEVER THE WHITE AND BLACK ARE REVERSED (THE BLACK "SELAH" GENERATES THE SEED FORMAT).
4. A GROUP FORMAT WOULD ORIENT NORTH, USE DIPOLES IN THE RED AND GREEN POLES AND A SINGLE POLE IN THE BLACK AND WHITE POLES. A KEY OF DAVID (6-POINT WHEEL) COULD BE USED IN THE CENTER WITH A PENTA-STAR IN THAT.
5. THE ARKHOM (GAMIISH) GRID IS ONE OF THE THREE GRIDS ORGANIZING THIS HEMISPHERE: NOVA SCOTIA, ARKHOM, AND THE BAKHIRA RESHEL SYSTEMS.
