

FLASHING UNIVERSE DYNAMIC

"Between the two major guiding power realms is a point of balance called by the Inner Earth Illuminaries, the ULTA. The Ulta, in more scientific terms is known as the pyra-radical gate...the mechanism which encodes the pyra-conic Light frequencies (emitted by the 'Living Lights') into spectra color/sonic bands. These bands are filtered down through the pyramid or spiral acting on and reacting with all levels of Integration until it reaches our human condition, at which point these bands are synchro-radiated to the bio-chronic field of the brain/mind complex. The pitch and meter of synthesis resulting from the matching of brain waves to the x-grams or program codes of Morphionic (divine) Light, determines the time ratio of our field of consciousness. What all of this essentially means is that the 'gate' controls our perception of reality and since 'reality' is nothing more than perception itself, the Ulta feeds us our reality in a frame of limited quanta release..."
